PROFESSIONAL SUMMARY

Aspiring Full Stack Developer skilled in Java, C, HTML & CSS, JavaScript, and SQL, with hands-on internship experience in React JS and web development. Proven ability to build end-to-end web applications and ML-based systems, backed by strong problem-solving and adaptability. Looking to contribute to a dynamic development team building scalable, full-stack solutions.

INTERNSHIP EXPERIENCE

React JS Intern — Srishti Innovative Computer Systems

June 2024 - July 2024

- Built ReactJS components and applied state management to develop functional, interactive web features.
- Collaborated with the team to implement UI elements and integrate third-party libraries.
- Gained hands-on experience with the React development workflow in a live project environment.

Web Development Intern — SkillCraft Technology

June 2025 - July 2025

- Designed and styled web pages using HTML, CSS, and JavaScript for client-facing projects.
- Assisted in debugging and testing web application features to improve functionality and usability.
- Followed web development best practices under guidance to deliver project milestones on time.

SKILLS

Technical Skills: Java, C, HTML & CSS, UI/UX Design, JavaScript, SQL

Soft Skills: Adaptability, Team Work, Time Management, Problem Solving, Decision Making

EDUCATION

Bachelor of Technology in Information Technology

2026

ST. Xavier's Catholic College of Engineering - CGPA - 8.07

VHSE - GOVT VHSS Paraniyam

2022

Percentage - 71.33%

HSC - Vimala Hridaya H S Viraly

2020

Percentage - 88.89%

PROJECTS

VaxiPredict – Vaccine Hesitancy Prediction System

- Built a spatio-temporal prediction system using GNN and LSTM to detect vaccine hesitancy patterns across regions.
- Achieved 94.2% accuracy, enabling early risk identification with visual insights.
- Supported decision-making through predictive analysis and intervention simulation.

Ecoverse – Personal Carbon Footprint Tracker

- Developed a responsive web app using HTML, CSS, and JavaScript to track daily carbon emissions based on diet, transportation, and energy usage.
- Displayed real-time carbon footprint data using interactive charts.
- Delivered personalized suggestions to reduce emissions through client-side logic.

CERTIFICATION

- Database programming with PL/SQL in Oracle Academy
- PowerBI Workshop
- Java Certification
